A NEW MUSICAL SOCIETY.

Organization of the Washington Operatic Amociation.

Pursuant to adjournment the musical organisation met last night in the armory of the National Rifles to perfect its organization. In the absence of Colonel J. O. P. Burnside, the temporary chairman, Mr. D. B. MacLeod, called the meeting to order, and Dr. Frank T. Howe was elected temporary chairman. The committee appointed at the former meeting to prepare a plan of organization and constitution reported, and the report, as adopted, provides for a president, vice-president, and constitution reported, and the report, as adopted, provides for a president, vice-president, secretary, treasurer, musical director, stage director, planist, and librarian. It furthermore provides for an executive committee, a finance committee, and a committee on membership. The business transactions of the organisations are separate and distinct from the musical portion of its work. The society will meet at half-past seven o'clock every Wednesday evening, at the Rifles' armory, for the purpose of rehearsal. It is in contemplation to learn a number of operas and other extensive musical productions and perform them in public for the purpose of raising money wherewith to conduct the society, and incidentially to have ready for any emergency a trained chorns to assist professional companies that may visit this city. It is thought that the fact that such a chorus, familiar with all popular operas, can be secured here at a few days notice will tend to bring to this city some of the better companies which have been in the habit of giving Washington the go-by. The officers as elected are: President, Colonel J. O. P. Burnside: vice-president, Dr. F. T. Howe; secretary, Major N. H. Camp; treasurer, Lieutenant J. F. Oyster. Owing to the lateness of the hour the further election was continued until next Wednesday evening. At this meeting there were present the representative vocalists of the District, both male and female, and the most positive interest was manifested by all. The title so-lected for the organization was "The Washington Operatic Association."

GEORGETOWN LAW COLLEGE.

interesting Lecture by Judge Richardson on "Indicial Notice." The law school of the Georgetown Uni-

versity resumed its course of lectures last evening, the opening lecture being delivered by Hon. William A. Richa Gson, of the United States Court william A. Richa-Kson, of the United States Court of Claims, who had chosen for his subject "Judicial Notice." The lecturer cited various interesting instances and decisions bearing upon this subject, especially the early settlement of Oregon and other Territories, and a case against the United States Government based upon a note given by General Fremont, signed by him simply as "Governor." The court, in deciding signifies the holder of the note, reviewed the whole history of California, the congressional enactments in relation to it, and concluded by giving the history of the controversy or conflict of authority between Kearney and Fremont in relation to the establishment of a civil territorial government. The lecturer pointed our that much is left to the good sense and sound judgment of each individual judge as to what he may consider worthy of "judicial notice." The lecture was listened to with close attention, and its conclusion received with hearty applause.

Death of Father Morgan.

Morgan, formerly assistant to Father Walter, of A. He was for about two years assistant pastor at St. Patrick's Church, succeeding Bight Rev. Bishop John J. Keane, of Richmond; but his health fatied him, and for a long time he has been on the slock-list. Saturday he was taken with a sovere hemorrhage of the lungs, and from that time rapidly sunk until he passed away yesterday. The remains will be taken to Baltimore, where the funeral will probably take place to morrow.

SATISFACTORY BAIL.

The Star-Route Cases-Rev. Billy Cook

In the Criminal Court yesterday morn ing there was a large attendance of spectators and members of the bar, who had evidently assembled to hear the decision of Justice Cox in the matter of the motion to quash the information against the L. French, and Mr. W. H. Turner. Of counse Mesars. Shellabarger & Wilson, Colonel Enoch Totten, and Mr. Chandler, of Missouri, in behalf of defendants, while William A. Cook and Colonel George B. Corkhill represented the Government. Among the spectators were Mesars. Lewis Ciephane, Wash B. Williams, B. H. Warner, Hallet Kilbourn, Dr. J. T. Johnson, J. P. Olmstead, N. W. Fitzgerald, and others. After the court had been duly opened JUSTICE COX SAID:

"I will state in regard to the question of fixing the amount of ball of the parties against whom charges are made in the information filed that I have only been able thus far to take a cursory glance at the paper referred to. In considering the relations which it is claimed the different parties bore to the alleged conspiracy described in the paper, and the peculiar circumstances aurrounding each, I have concluded that in the case of allegon the paper, and the peculiar circumstances aurrounding and the properties of the parties, namely, Messra, French and Turner, who were clerks in the Department, a reasonable amount of hall would be \$7,500, and in the case of the two, whose names I have mentioned, \$4,000 each. I would, however, be happy to listen to any suggestions that the counsel may see proper to make." "I will state in regard to the question of fixing

be happy to listen to any suggestions that the counsel may see proper to make."

Mr. Totten—"If Your Honor please, I believe that the gentlemen are all present, ready to give bail. Before that is done, however, I desire to invite the attention of the court to one circumstance, and that is this: This resper, called an 'information,' was filed here without any notice to us, without any order sist, and, as I have been informed (how accurate my information is of course I do not know), the Court stated it might be filed under the circumstances which were stated by the gentlemen applying to the Court at the time, subject to all the exceptions and objections which might be taken to it bereafter. Now, I understand from that remark of Your Honor that we are to have the same privilege of making objections now that we would have had had an order nist been entered, and had we been brought in at the time of the application to resist it. If am incorrect in this impression I should like to be so informed by Your Honor. We do not desire to wrive any privilege or right that we may have in the matter of practice by giving bonds here."

The Court.—"No; the giving of bonds will not involve waver at all. You propose to move to quash the information, I understand, and on motion—"Mr. Totten—"No; I will not say that we propose

Mr. Totten—"No; I will not say that we propose to do that. I will not say what we propose to do that. I will not say what we propose to do. We will doubtless move to quash the information at some time or other; but we may make a pre-liminary motion prior to that. The information may be quashed for sundry and divers reasons. There are a great many infirmities inside of the paper itself, and there are a great many outside of it. For this reason, among others, we desire to bring the attention of the Court at the proper time and in the proper way to all of the obligations that exist to this peculiar and EXTRAORDINARY PRACTICE."

ENTRAORDINARY PRACTICE."

The Court—"You can have that opportunity, The giving of bond will not amount to a waver on your part, or anything of that kind."

Mr. Totten—"Very well: we are ready to give the bonds now. Then, Your Honer, I may as well state here, while I am on my feet, that we will not be able to file the motion to quash or any other motion to-day, but may to-morrow morning. We will give the other gentlemen, also, due notice of it."

Mr. Cook—"In order that there may be no misapprehension, and that the practice may conform to the strict rules of court, I desire, in accordance with the suggestion made by District-Atorney Corkhill a day or two since, to have it distinctly understood that at least two days notice of any motion or proceeding in this case, after the giring of the ball, shall be given to me."

Mr. Totten—"Let me make an Inquiry. The statement of Colonel Cook, as made the other day, as I gather it from the newspapers, is a little blind, as I comprehend. I will state here that I get most of my information about the star-route cases from the newspapers; they are very generous ou that subject. not only by the rules of our practice, but by the
common rules of fairness, to give the opposing counsel notice of what we intend to do in the way of argument, in order that they may have an opportunity to appear and resist us. But we may file

Mr. Totten—"The gentlemen shall not be

Mr. Cook—"I have not myself any doubt about the responsibility of the parties named, but still I would prefer that there should be a regular justification, because property in estate is very fluctuating in this country."

Mr. Totten—"My brother Cook is disposed to be technical about this. I would like to know where he gets the authority to require the Court to fortify its discretion in the taking of a bond by what he calls 'justification.' There is no such thing known to our practice. If Your Honor is satisfied that any one of these bondsmen is good for \$7,500, that is all that is necessary. OVERCOAT WEATHER.

Why the Cold Wave Struck Us So Soon An Interesting Talk About It. "What in the world is the matter with

the weather?" said a shivering Expunition re-porter yesterday to Mr. I. P. Noyes, who is good thority on the subject. "Sit down and I'll tell you all about it." Our reporter hugged up close to the stove and istened to the following:

"The heat of midsummer this year continued long past the usual time. The afternoon of the loward evening, however, a change came in the almosphere, and the weather gradually grew more in harmony with the season of the year. Later in the evening the cold north wind became quite a gale, and the thick clouds were hurriedly wafted to the southeast. The cold of early winter seemed upon us, and it promised to be a cold night. Toward midnight, however, the wind fulled.

The dressing and mounting is said to be simply magnificent, while the ballet has never been equaled outside of Milan. The music is by Suppe, the great composor, whose works have become so favorably known in America. Potomae Fruit Growers' Association

The excursion was interesting and practical. The excursion committee reported that the excursions given by the association during last summer were uniformly pleasant and agreeable and commonded by the general community for their order, temperance, and sociability, and have maintained their past regulation in this respect. Now that the Potomac Fruit Growers' improvement Company has become a body corporate and has leased Glymont, where no intoxicating drinks will be hereafter soid, the association will be able to have their future excursions and exhibitions even more attractive. Several watermelons were on exhibition, raised by J. Hoffman Smith.
